▶ 3.1 安装技巧 Installation Tips

1. 先以斜向 45° 将打印件安装进碳板，确保卡扣部分完全嵌入碳板；
2. 随后将位于中部的卡扣向边缘推进，直至与碳板平齐（此处可借助螺丝刀等工具）；
3. 另一侧打印件也是一样装配方式，将打印件推至完全固定。

1. Insert the printed part into the carbon plate at a 45-degree angle. Push it in until the buckle is fully seated.
2. Push the center buckle outward toward the edge until it clicks and lies flush with the plate.
(You can use a screwdriver for this).
3. Repeat the process to install the printed part on the other side, pushing until it's securely fixed.
